

Specialists in transforming standard fleet vehicles into optimised work-ready solutions.

Our services include custom racking systems, integrated electronics, advance tracking solutions along with many more.

With a commitment to innovation, reliability and efficiency, we ensure your fleet is ready to meet the demands of any job.

Whether you're upgrading a single vehicle or managing an entire fleet, MVS is the trusted partner for modular and scalable solutions that empower your workforce.

Commercial vehicles are often limited to one type of use

Commercial vehicles are typically designed for a single purpose, limiting their versatility and functionality across different applications.

Flexibility through complete separation of interior fittings and vehicle

Any panel van

Our system works with standard commercial vans without requiring modifications to the base vehicle.

Stellar Pod module

Our modules (camping module, workshop module, platform) can be easily installed and removed.

Multiple use of commercial vehicles

This separation allows for versatile use of a single vehicle for different purposes.

Transforming vehicles, Elevating performance

Transforming vehicles, Elevating performance

UNIQUE SELLING PROPOSITION

One size fits all

Fits in all vans, also for rental vehicles

Easy loading

1 person + 5 minutes. Tie down. Ready!

Expansion in the vehicle

No changes to base vehicle required

CAMPING MODULES

For 3.5t panel vans

The Stellar Pod camper modules transform any 3.5t panel van into a complete camper in just a few minutes - and back again.

For Minivans

The Stellar Pod Small is the flexible solution for your van. The module transforms a Primastar, a Mercedes Vito, a VW T5/T6 and any other similar vehicle into a fully equipped camper and back again in just 3 minutes.

Transforming vehicles, Elevating performance

WORKSHOP MODULES

For 3.5t panel vans

- Premium: Stellar Pod platform with storage shelf, drawers, flap shelf, case shelves with system cases and storage box shelf with KLT boxes
- Standard: Stellar Pod platform with storage shelf, drawers, case shelves with system cases and storage box shelf with KLT boxes
- Simple: Stellar Pod platform with storage shelves

For Minivans

- Premium: Stellar Pod platform with drawers, flap shelf, case shelves with system cases and storage box shelf with KLT boxes
- Standard: Stellar Pod platform with storage shelf, drawers, case shelves with system cases and storage box shelf with KLT boxes
- Simple: Stellar Pod platform with storage shelves

PLATFORM SOLUTIONS

Platform 400/700

The platform enables loading and unloading of complete load compartment extensions in approx. 3 minutes without aids by one person - with less height loss than with pallet loading.

- For all type of panel vans and minivans
- With four removable trolleys
- Payload: 400 kg or 700 kg available
- Platform weight: 70 kg + 20 kg (trolleys)

Specialised Solutions

- Workshop set: Platform with workshop equipment including heavy duty pull-out
- Cooling solution: Stellar Pod Cooling Module with no modifications to the vehicle needed

Loading Process:

1. The module is in the vehicle; the running gear is provided
2. The module is pulled out; the rear supports are fitted
3. The module is pulled out further; the front supports are fitted
4. The module can be removed completely
